Yume-no-Tsuribashi
To cross it safely and smoothly,
keep looking 10 m ahead of you,
and lower your step each time the bridge
swings up. There is a steep slope beyond
the bridge.
The bridge can become one-way
depending on the season.

Hiryukyo L.72m, H.70m.
Those not good at walking are advised
not to cross the suspension bridge,
but to go up to Hiruyuko. You'll have
a view of the suspension bridge and
the valley below you.

We aim to be the cleanest spa resort
in Japan.
Please cooperate with Sumatakyo
environmental beautification donations.
This area is all included in the Oku-oi
Prefectural nature park,
so please do not litter empty cans or trash.
Wheelchairs are available
free at the donation information center.

- ! Five things you must keep in mind to enjoy Yume no Tsuribashi safely**
1. You can cross Yume-no-Tsuribashi only from daybreak to dusk. You are advised to be in plenty of time.
 2. In order to protect the natural scenery, there is no outdoor lights on the promenade course, so it is possible to cross it only in the daytime, but not at night.
 3. The promenade course includes a steep downhill slope and 304 steep stairs. Comfortable shoes are a must.
 4. It takes about 30 to 40 minutes to reach Yume no Tsuribashi on foot from the hot spring parking lot. When it is crowded, you often have to wait about 60 to 120 minutes to cross the bridge. You really have to be in plenty of time.
 5. Last but not least, Yume-no-Tsuribashi is one way when crowded.
